American & Foreign Patents.

R H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of the U S Patent Office Washington, (under the Act of 1837)

76 State Street, opposite Kilby Street, BOSTON

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also, in Great Britain, France and other foreign countries. Caveats, Specifications Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same Copies of the claims of any Patent furnished by remitting One Dollar Assignments recorded at Washington

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents of ascertaining the patentability of inventions unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere The testimonials below given prove that none is more successful at the Patent Office than the subscriber, and as success is the best proof of advantages and ability he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents

These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe render him able beyond question, to offer superior facilities for obtaining Patents

All necessity of a journey to Washington to procure a Patent, and the usual great delay there, are here saved inventors

TESTIMONIALS

"I regard Mr Eddy as one of the most capable and successful practitioners with whom I have had official intercourse" CHARLES MASON
Commissioner of Patents

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office
EDMUND BURKE,
Late Commissioner of Patents

"Mr R H EDDY has made for me THIRTEEN applications, on all but ONE of which patents have been granted and that is now pending Such unmistakeable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges."
JOHN TAGGART

During eight months, the subscriber, in course of his large practice made on twice rejected applications SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents R. H. EDDY

DRS. DEMING BROTHERS,

WOULD most respectfully announce to the citizens of Bangor and vicinity, that they have taken a suit of Rooms at

2 1-2 STRICKLAND'S BLOCK,

on Kenduskeag Bridge, where we shall remain through the winter, to treat CHRONIC by the

Electropathic Treatment.

We would especially invite the afflicted, that are laboring under any old and inveterate Chronic Disease, in the form of Scrofula, Hip Disease, White Swelling Erysipelas Salt Rheum Tetter Rash, and every Humor of whatever kind and character likewise, Spinal Diseases, Curvatures, St Vitus' Dance, Fits, Paralysis, Contracted Muscles, Distorted Limbs Dyspepsia, Liver Complaint, General Debility, Habitual Constipation, &c We would likewise call the attention of the public to our peculiar and successful manner of curing

Consumption.

In every instance, when in the acute stages, or when the lungs are not fully involved.

The most obstinate cases of nervous or sick Headache, Neuralgia in the head, face and extremities, with acute and chronic Rheumatism, are instantly relieved and permanently cured in a few applications

☞ To the ladies Drs. D most [illegible] call, who are sufferers with Dropsy, Debility, Leuchorea, (or Whites,) inflammation and Falling of the Womb, Abscesses, Tumors and Cancers of the Womb and will guarantee a permanent cure in every case

For Suppressions, Irregularities, painful Menstruations, Neuralgia of the Womb, with all their entailing ills, there is no agent in the world so efficient in curing as Electricity In many cases, serious obstructions can be broken up in a few moments and in every case it destroys the tendency to relapse—To all those desiring PERFECT HEALTH and the services of the oldest Medical Electricians in the United States we most respectfully invite to call, tendering to all a positive assurance of a full recovery of health

P S—Drs D first introduced electricity for extracting teeth without pain

To those having decayed teeth or stumps or desiring their teeth out for re-setting we extend a polite invitation During the operation the person experiences a pleasing, invigorating sensation

IRON-CLAD STEAMERS.

NAVY DEPARTMENT }
Washington February 20, 1862 }

THE Navy Department will until the 24th of March next, receive propositions for the complete construction and equipment of iron-clad vessels for river harbor and coast defence

These vessels, with the exception of those for the Mississippi river and its tributaries, will be propelled by screws those for the Mississippi river and tributaries may be propelled by paddle wheels—The hulls will be either wholly of iron (which would be preferred) or of iron and wood combined as the proprietors may consider most suitable for the object proposed, but their sides and decks must be protected with an iron armament sufficient to resist the heaviest shot and shells

The vessels for the Mississippi river and its tributaries are not to draw more than six feet water when fully equipped and armed at which draft they are to be able to maintain a permanent speed of nine knots per hour in still water and carry sufficient coal in the bunkers for six days steaming at that speed The armament will consist of not less than six eleven inch guns

The vessels for harbor defence are not to draw more than twelve feet water when fully equipped and armed at which draft they are to be able to maintain a permanent speed of ten knots per hour in smooth water and carry sufficient coal in the bunkers for seven days steaming at that speed—The armament will consist of not less than from two to four eleven inch guns

The vessels for coast defence are not to draw more than twenty feet water when fully equipped and armed at which draft they are to be able to maintain a permanent speed of fifteen knots per hour in the sea and carry sufficient coal in the bunkers for twelve days steaming at that speed Their armament will consist of one or two fifteen or twenty inch guns

The guns of the vessels for harbor and coast defence are to train to all points of the compass without change in the vessel's position

The propositions must state the number of vessels, subject to the election of the Department, which the party proposes to furnish complete in every respect embracing armour plating, steam machinery and equipments of all kinds, ready for service, excepting only the ordnance and ordnance stores and provisions, the propositions must be accompanied by descriptions, specifications, drawings and models of such character that the work could be executed from them

The place of delivery must be stated, the time within which the vessel or vessels are to be completed and also the total sum to be paid for each

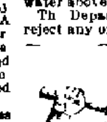

It will be stipulated in the contract that one fifth of the total amount will be retained by the Government until sixty days after the reception of the vessel, in order to give it a trial the remaining payments being made with due regard to the proper performance and progress of the work, the contract will also embrace forfeitures for failure to perform the conditions specified

The bids must be accompanied by the guarantee required by law, that if a contract is awarded, it will be promptly executed and the names of the parties who are to become the sureties to the amount of the face of the contract will also be stated

The Department will consider any other propositions that may be presented in which the draft of water above named is not exceeded

The Department will be at liberty to accept or reject any or all the propositions 2awtwf27

BRITISH REVIEWS!

Great Inducements to Subscribers!

PREMIUMS AND REDUCTIONS!!

L. SCOTT & CO New York continue to publish the following leading British Periodicals viz

1 The London Quarterly, (Conservative)
2 The Edinburgh Review, (Whig)
3 The North British Review, (Free Church)
4 The Westminster Review, (Liberal)
5 Blackwood's Edinburgh Magazine, (Tory)

The present critical state of European affairs will render these publications unusually interesting during the forthcoming year They will occupy a middle ground between the hastily written news-items, crude speculations and flying rumors of the daily Journal and the ponderous Tome of the future historian written after the living interest and excitement of the great political interests of the time shall have passed away It is to these Periodicals that readers must look for the only really intelligible and reliable history of current events and as such, in addition to their well established literary, scientific and theological character we urge them upon the consideration of the reading public

The receipt of Advance Sheets from the British publishers gives additional value to these Reprints inasmuch as they can now be placed in the hands of subscribers about as soon as the original editions

LARGE PREMIUMS

TO OUR FRIENDS

Hitherto we have never offered any one a premium for helping to extend the circulation of THE TRIBUNE We have printed the cheapest newspaper considering the amount of matter it reproduced that was ever issued in this country selling it for little more than the cost of the white paper, have employed no agents to canvass for subscribers and have allowed no compensation beyond a copy of our paper to any [illegible] the thousands of generous friends who have annually taken care that the number of copies [illegible] several [illegible] circulated in their respective neighborhoods should be at least maintained and if possible increased We have been sparing even of verbal thanks to these friends but have none the less realized the fullness of our obligation for their earnest unselfish painstaking, persistent efforts

We propose for the present season only—in view of the hard [illegible] and [illegible] fact that we are enabled to buy white papers somewhat cheaper than we have hitherto done or can hope to after the close of the War—to make acknowledgment—no so much a recompense as a slight testimonial—to those friends who shall see fit to exert themselves to transmit [illegible] either original or renewals to our Weekly and Semi-Weekly editions We do not know that we could offer anything of similar value more [illegible] acceptable and useful than a Gold Pen of the best quality and finish We propose therefore to forward to each person who during the [illegible] shall send us subscriptions and payments for THE TRIBUNE as follows

What Prevented the Success of the Rebellion.

As a cotemporary well says, in reviewing the history of the rebellion which for a long time seemed so prosperous, we are led to wonder, not that it succeeded so far as it did, but that it was not altogether successful. The conspirators had such an opportunity as no other conspirators ever had, for they completely controlled the Government which they designed to overthrow. Mr Buchanan's false confidence permitted them to arm themselves with our arms, to seize upon almost all the strong places in the South, and the head of the Treasury Department devoted all his ingenuity to ruining the credit of the Government, whose credit it was his particular function to protect. They had every reason to believe that the North would continue to be divided in sentiment. As for means, had not they two hundred millions of Northern capital in their hands, and a cotton crop ready for sale, worth two or three hundred millions more?

All their sources of strength were more or less real, and the rebels were not over sanguine in reckoning upon them. What then were the agencies by which they were overborne?

First, and foremost, the resolute patriotism of the North. Second, the undoubtable resolution and pluck of the northern men, to whom defeat only served to teach the conditions of future success. Third, the skill which the Northern men have always possessed in naval warfare, and which has been splendidly developed in these late contests. These agencies have been evident to every one, but there have been others at work not less potent, though less obvious. The rebellion came at a moment most opportune for England. The manufacture of cotton had been enormously overdone. The markets of the world were everywhere glutted, and an enormous stock was in the hands of the manufacturers. Consequently these latter, so far from being injured, were greatly benefitted by the stoppage of the cotton supply, which converted impending bankruptcy into the greatest prosperity, by enabling them to sell off the overstock at enormous profits. Large numbers of operatives are now out of work, but not as many as in 1857, and not so many by far as would have been had this rebellion not taken place. A private letter from one of the most distinguished English statesmen explicitly says that the American civil war *saved Lancashire*. At the same moment happened an enormous deficiency of breadstuffs abroad, and an immense crop at home, turning exchanges in our favor. Thus the rebellion came exactly at the moment when Europe wanted our cereals, and did not want our cotton, a culmination of circumstances most extraordinary, and which has never happened before in the history of the republic. From what we have seen of the spirit of England, and her desire for a division of this Union, we can have little doubt that this condition of affairs turned the nearly balanced scale, and has barely prevented an armed intervention.

Even had the rebels fully understood the unfavorable aspect of these matters, they could not have postponed the struggle—it was then or never. The period of four months which elapses between the election of a President and his inauguration was that which was peculiarly auspicious for these infernal schemes. During this period the government is unexceptionably weak, and particularly exposed to traitorous designs.

The Boston Journal of the 4th of March says:

One year ago to day Abraham Lincoln was inaugurated President of the United States.—What a difference in affairs then and now! Then the ship of State was rolling in the trough of the sea, and threatening to go to pieces at any moment. Good officers, indeed, were on the quarter deck, but they were new to the situation, found every thing in disorder, and met with all sorts of embarrassments. Even the President hurried to the Capital in disguise to escape assassination. The public offices swarmed with traitors, and seemed to have a hand wherever mischief was possible. Orders transmitted to a navy yard never got there—when they were repeated, they were disobeyed—and even when a national vessel was got to sea, its machinery was likely to break down in a vital part. There were but four vessels in our navy accessible.—The army was well nigh disorganized, and the armories and arsenals were plundered. The North was apathetic—the rebels were full of glee. Jeff Davis, boasting of his determination to make the North "smell Southern gunpowder and taste Southern steel," went in a triumphal procession to Montgomery, where President Lincoln's Inaugural was read "amid bursts of laughter".

The year has gone, and what a change it has signalised! Aroused by the fall of Fort Sumter, twenty millions of loyal citizens rose up as one man to the defense of the Government. An army of 600,000 men, as well equipped as any army in the world, has been put into the field. A powerful navy has been put upon the sea and upon our inland waters. Immense stores of warlike material have been supplied in abundance. All things have demonstrated that our Government is of all others in the world the strongest and the quickest to act.

BAGGING EDITORS. The Boston Post says that Secretary Stanton's famous telegraphic despatch caused great mischief in Chicago. The policeman delegated as newspaper censor there was rough in the exercise of his ridiculous authority. He stopped the cylinder presses and consternated mail boys and feeders by bagging whole and half-worked editions, regardless of protestations and lamentations. In some cases the editors themselves were bagged, as well as their papers. The "ukase" was put into the hands of some German policemen, who did not understand English very well, and shocking work they made of it! Night editors and reporters had gone home two hours before, but a selection was made of some one to represent each paper, and thus the process went remorselessly on, until the police office at the Court House had its full complement. The editor of the Chicago Post, we are told, vigorously remonstrated, but in vain. The policemen took him by the collar, and the wretched man was speedily added to the group at the Police Office. Things simmered down, however the next day, and "editions" have been respected.

A singular statement, and one which needs explanation, is made by the Cairo correspondent of the Cincinnati Commercial, viz: "That Gen. Bushrod Johnson and all his staff, except Capt. Moorman, escaped from Fort Donelson on Monday last, after they had been prisoners but thirty-six hours. No trick was resorted to in order to effect their escape; they simply mounted their horses and rode through the line.

THE DISASTER TO THE VERMONT. Mr. Birnie the paymaster and acting storekeeper of the Vermont, for whose safety great anxiety has been felt, arrived at Gloucester Monday morning in a fishing smack, and proceeded immediately to Boston.

When he left, the Vermont was on George's Bank, in seventeen fathoms of water. Having carefully observed the wind, Mr. Birnie supposed the Vermont to have been at 12 M. on Monday, about 260 miles S. E. of Cape Cod, (Highland Light,) and as she was under sail, with a temporary steering apparatus, and perfectly tight, no apprehensions are entertained for her safety.

Extracts from Alabama papers denounce the soldiers from that State for not re-enlisting, now their term of service has expired. The New Orleans Delta attributes the recent disaster to the fact that the rebel government did not adopt an "offensive policy."

Gen. Hunter has arrived in Washington. This will lead to a final adjustment of the matter between him and Gen. Lane.

RUNNING THE BLOCKADE. Mr Mason, the rebel commissioner, having stated to Earl Russell that from six to seven hundred vessels entered and left the blockaded ports, the Earl told the House that he had asked Mr. Mason what was the tonnage of the vessels to which allusion had been made, and to that question Mr. Mason was unable to give him any answer. That, said the Earl, was a matter of great importance in the question, because the seven ports blockaded were connected with several other smaller ports, and it was possible that vessels carrying small cargoes might run from one to the other; but these could hardly be called vessels running or breaking the blockade. That was putting the rebel Commissioner in rather a close place.

☞ The Savannah Republican not only admits that the communication between Fort Pulaski and Savannah is wholly cut off, but declares that the Unionists have erected three batteries on the river in the form of a triangle, which it is impossible for any vessels in the rebel service to pass. It says that the guns are all of a heavy calibre, most of them throwing shot to the distance of three miles. A number were fired at the Savannah, but they all fell short.

☞ An English newspaper has been started in Japan.

☞ For the first time since early last summer, business messages from Nashville were received by telegraph in New York on Saturday.

☞ An early opening of navigation on the lakes is anticipated, as they are less frozen than usual.

☞ The Louisville Journal says cotton has made a bad king, but will prove a most excellent subject.

☞ The rebel generals Buckner and Tilghman, captured at Fort Donelson, are imprisoned at Fort Warren, Boston harbor, having arrived there on Monday last.

☞ While cotton is declining in price iron is advancing. A good indication, both ways.

The Memphis Appeal complains that the leader of the Federal army in Missouri does not act "in pursuance of the laws of war." The last we heard of him he was acting in pursuance of Price.—*Prentice.*

The Texans, Mississippians, and Alabamians must procure longer bowie-knives. Those they used in their late disastrous fights were only about three feet in length. No wonder they got whipped.

☞ We have another letter from our Augusta correspondent, but received too late last evening for this paper. He says Lieut. Col Chandler of the regular army, is daily looked for to inspect the cavalry regiment and the artillery batteries yet in camp at Augusta. Also that Col. Hiram G. Berry of the 4th regiment, has received a Brigadier General's commission (as before stated), and that Major Frank Pierce of the 6th, has been discharged from the service. It is expected that the Legislature will adjourn about the last of next week.

☞ The Medical School connected with Bowdoin College, commenced its forty-second course on the 21st ult., with fifty five students. The introductory lecture was delivered by President Woods, in the new building erected during the past year.

☞ At the city election in Bath, on Monday last, Dr. Israel Putnam, the Republican candidate, was elected Mayor by 438 votes against 115 for James Drummond.

☞ The steamship Mississippi, with the Massachusetts 31st and companies A, B, E, and I of the 18th Maine (Col. Davis) arrived at Fortress Monroe on the 21st of February.

☞ The manufacturers of Lewiston, have pursued a liberal course the past winter—refusing to sell cotton at the late fabulous prices, but running their mills at a sacrifice, keeping their operatives busy, and disbursing thousands of dollars in beneficial cash.

☞ There was a heavy thunder shower at Machias and vicinity on Monday evening, the 24th ult., just previous to the northwest gale of that night.

☞ The Machias Union states that the steamer Rockland has been chartered for Government service, and will soon leave Machiasport for Fortress Monroe.

From information received within a few days from the Maine Second, we learn that the sick soldiers of that regiment were ordered to be removed to Washington on Thursday last, where they would be under the care of Dr. Morrison,—Dr. Hamlin remaining with the regiment. This is supposed to indicate an early movement of the regiment.

☞ The State street omnibus line will suspend operations after the sleighing is over, until further notice.

☞ We have received but one Augusta paper previous to last evening, since Thursday of last week—and that one came by stage.

☞ Bugbee & Co. have received a new and neat article designed for an "army inkstand," but which answers equally well for a pocket inkstand for every body's use.

☞ The Postmaster at Augusta one day last week mailed 3700 letters.

☞ The meeting of the ladies at the City Hall appointed for Friday next, is postponed until further notice, as the Hall will be required for other purposes.

PHOTOGRAPHIC ALBUMS. J. S. Tompkins, on Main street, advertises a large lot of Photographic Albums for sale—unlike many articles for presents, every year adds to the value of this book, and when age creeps on this simple collection of pictures of the friends of our youth will assume a ten fold value.

RECRUITING. Capt. Sargent is recruiting in Bangor for the gallant Second, and Capt. Tilden at Castine. They want about two hundred and fifty men. The regiment is well officered, has seen service, stands well and offers a good opportunity to persons wishing to enlist.

Capt. Thaxter also wishes for a few active men for the cavalry service, and Lieut. Pearson is enlisting for the regular army. Their offices are in this city.

Corporal Clark is enlisting in this city for the Ninth Regiment.

Lieut. Fuller has an office at East Corinth, to recruit for the Ninth Lieut Wardwell at Bucksport, and Sargent Whittier at East Corinth, are recruiting for the Sixth.

At South Winn Sargent Leland has an office. He wants men for the Eleventh. It will thus be seen that there are no lack of opportunities to enlist; and we trust that the regiments will soon be filled.

☞ John Warner, whose accidental death in the Maine Second regiment we announced yesterday, was an honest and industrious citizen, for twelve years miller at Kenduskeag where he leaves a wife and five children. He enlisted with his two sons last fall. His remains reached this city by cars Tuesday morning, and the funeral will take place at Kenduskeag on Friday under charge of the Masonic fraternity, of which he was a member. The name of the man who was the cause of Warner's death is Bagley. Warner was in his tent when shot.

MATTAWAMKEAG LOG DRIVING COMPANY. At the annual meeting, March 4th, the following officers were elected: Davis R. Stockwell, Moderator; Henry E. Prentiss, Clerk and Treasurer; Eben Webster, Joab W. Palmer, Joseph M. Hodgkins, Directors.

DISGRACEFUL CONDUCT AT THE AUGUSTA FIRE. The Maine Farmer, in its account of the recent disastrous fire at Augusta, says:

Perhaps the lower part of the building might have been preserved, and considerable destruction of property prevented, were it not for the confusion and disorder caused by the presence of a large number of the soldiers, who were injudiciously allowed to leave their encampments, and some of whom seemed to take a ruffianly delight in insulting and abusing our citizens and the officers engaged in the protection of property and the preservation of the peace. The City Marshal, while in the lawful exercise of his duty, was attacked by a drunken gang of men belonging to the 16th regiment, and he and his posse driven from the ground. Other peaceable persons were also beaten and maltreated, and the hose through which the water was played upon the fire, deliberately and repeatedly cut by them. We would do the soldiers the justice to say that very many [illegible] rage and insult by their drunken and desperate companions. We are sorry to be obliged to make this statement, but the truth demands it. At a late hour, by order of Colonel McClusky, an armed guard was placed over the property exposed in the street, rendered necessary by the destructive and pilfering depredations committed upon it by some of the members of his regiment.

An artist of Louisville is painting a picture of the retreat of the five thousand, after the style of the picture of Bonaparte's retreat from Moscow, only he uses water colors, so they will run.—*Louisville Dem.*

The Louisville Journal says: "The steamboat Pittsburgh came up the river with rebel prisoners last Saturday. On nearing West Point all the prisoners cried 'Hurrah for the Union' except one, who shouted 'Hurrah for Hell.' There seems to be two parties now—one for hell and the other for the Union."

A JOKER JOKED. President Lincoln bears the reputation of a great joker, but his efforts pale before the sublime assurance of the King of Siam, who offers numberless elephants to a President already supplied with the biggest elephant of the last three centuries—one of Southern growth.—*N. Y. Sun.*

A friend writes to inform us that since the interdict of the Secretary of War was issued, requiring the press to abstain from publishing intelligence of the movements of the army, members of Congress (some from this part of the State) and other officials at Washington have been busy in writing all they could learn to their friends, and business associates, in order that they might take advantage of such exclusive intelligence in the markets.—*N. Y. World.*

BANGOR DAILY WHIG AND COURIER.

TELEGRAPHIC TO THE Daily Whig and Courier.

[Dispatches to the Evening Papers]

The Evacuation of Columbus—News from General Banks's Army—Rebels Concentrating at Winchester—Union Prisoners on their Way North—Martial Law Proclaimed in Richmond—Order and Business to be Resumed in Nashville—Panic at Richmond.

CHICAGO, 4th

The evacuation of Columbus was commenced on Thursday, the last of the rebels not leaving till yesterday afternoon The burning commenced on Friday, and was continued till Sunday Many portions of their barracks and other quarters are still on fire The fortifications were not molested Everything that could not be carried off was fired or thrown into the river A large number of cannon were thrown into the river

But few people remain at Columbus There were 19 000 troops They left Columbus on transports and by railroad The track and bridges were torn up, and burned for six miles Their further destination is not yet known

It is reported that General Polk and his officers had become unpopular because they had done nothing but fortify the town The men had become demoralized and reckless, and feared they would be surrounded, and shelled out

The ex Mayor of Columbus is suspected of treason to the Confederate government, and was carried off by the rebels The works are very extensive and are probably about four miles in extent Every prominent bluff on the river and around the town is fortified

WASHINGTON, 4th

The following despatch was received here to-night from the correspondent of the Associated Press

General Banks's forces occupied Martinsburg yesterday without opposition, and the pickets continue to bring in prisoners Although few in number, they are of much importance Among those taken last night was Rev T J McVeigh chaplain of the 2d Virginia infantry He was captured by Co K, Michigan cavalry, Captain Mann, near Berryville

Intelligence from Winchester leads to the belief that Jackson is there in full force, and has completed his preparations to oppose our approach three miles east of that place The same authority says his army is well provisioned and clothed

SALT LAKE CITY, 4th

At the Territorial election yesterday, the vote was unanimous for a State constitution Brigham Young was elected Governor, and H C Kimball Lieutenant Governor, without opposition

FORTRESS MONROE, 4th

The vessel that arrived here last night, supposed to be the frigate St Lawrence, was the ship De Witt Clinton

Atlanta, 28th The Confederacy of this morning states that General Bushrod Johnson escaped from Fort Donelson, and reached Murfreesboro' last Sunday The roads from Nashville are greatly damaged by the recent heavy rains

The Richmond Despatch of to-day says Cols Wilcox Corcoran and other Federal prisoners, to the number of 400, arrived here Friday from Columbia S C, and are awaiting transhipment to Newport News They, however, may not start for several weeks to come, as arrangements for sending them away have not been perfected

It is reported from Richmond that John Minor Botts has been arrested and imprisoned for maintaining Union proclivities

A rebel general order, dated Richmond, 1st, proclaims martial law over Richmond and the adjoining country for ten miles

All persons having arms of any description are requested to deliver the same to the Ordnance Department before the 15th of March, otherwise they will be seized The Despatch says this measure will be hailed with satisfaction by all classes

NEW YORK, 5th

Steamship Ericsson, from Port Royal 1st, arrived this forenoon with 320 bales of cotton and 140 passengers

A passenger from Savannah reports 30,000 rebel troops there

CINCINNATI, 5th

Forty nine rebel officers went to Fort Warren from Columbus yesterday

The Gazette has a despatch from Nashville giving the following proclamation from that city

The committee representing the military authorities and people, have discharged their duty by calling on General Buell, at Edgefield, yesterday The interview was satisfactory to committee, and there is every evidence of safety and protection to the people, both in their persons and property I therefore respectfully request that business be resumed, and that all our citizens, of every trade and profession, will pursue their regular vocations

The county elections will take place on the regular day and all civil business will be conducted as heretofore Commanding General Buell assures me that I can rely upon his aid in enforcing our police regulations. One branch of business is entirely prohibited, viz: The sale or giving away of intoxicating liquors

I shall not hesitate to invoke the aid of Gen Buell in case the recent laws upon the subject are violated I most earnestly call upon the people of the surrounding country who are inside the Federal lines to resume their commerce of the city, and bring in their market supplies, especially wood, butter and eggs, assuring them that they will be fully protected and amply remunerated

(Signed,) R B CHEATHAM, Mayor

The city of Nashville is entirely quiet Even the secessionists acknowledge that our military authorities are treating them cruelly kind All admit that the vast superiority of our arms, equipments and the appearance of our troops, and say that so far there has been the most admirable discipline displayed

They admit also that the Hessians have not committed a single outrage while the conduct of their own troops was outrageous Union men begin to make their appearance They say that a majority will yet be found on our side, but that it will take some time to develop the feeling that has been so thoroughly crushed

A postal agent is here from Washington He will open the post office to-morrow and has already had 40 citizens applying for clerkships in it

BALTIMORE, 5th

The Richmond Despatch announces that the steamer Nashville came direct from Southampton to the North Carolina coast and approached the blockading vessels with the Union flag flying The Nashville went directly up under the guns of a blockading vessel almost within hailing distance and then passing her raised the rebel flag and moved directly towards Fort Macon

The blockading vessels immediately discovered the deception, and started in pursuit of the Nashville, following her until within range of the guns of Fort Macon Several shots were fired at the Nashville, but she reports that no damage was done.

The Richmond Despatch calls attention to mysterious writing on the wall, indicating the Union conspirators are at work. Among the writings are the following—"Attention, Union men!" "Watch and wait!" "The Union forever" "The day is dawning—the hour of deliverance approaches!"

It was these significant announcements that caused the arrest of John Minor Botts and other suspected citizens

There was a great panic at Richmond which was caused by the recent defeats of the rebels The leading traitors exhibited the greatest trepidation

The Richmond Despatch urges summary measures for checking the progress of treason, and advocates the arrest and execution of the conspirators

Letters from Port Royal state that Fort Pulaski is entirely surrounded by Union troops, and effectually cut off from communication with Savannah, and also that new batteries are being erected Savannah has been very well fortified by rebels, and large numbers of rebel troops are continually arriving

The steamer Columbia from Havana 1st inst, has arrived

The Harriet Lane had arrived at Havana She took as a prize off Matanzas the schooner Virginia Adams

SPRINGFIELD, Mo, 1st

On Wednesday night Capt Montgomery of Wright's battalion was surprised at Keittsville, Barney county, by 850 rebels, supposed to belong to McBride's division, but who represented themselves as Texan Rangers They fired into the house occupied by our men, killing two and wounding one One of the rebels was killed, and the balance fled, taking with them about 70 horses, and two wagons loaded with sutlers Stores were burned the same night at Major Harbine's farm, two miles beyond Keittsville

Colonels Ellis and Wright with an adequate force were sent to Keittsville

Gen Price had burned several public buildings at Fayetteville including the arsenal, a lead factory, several flouring mills and 100,000 pounds of flour Many of the inhabitants along the road have fled, they being deceived by lies of Price that all would be butchered

A strong Union feeling was exhibited among those remaining An old soldier of 1812 brought out a Union flag long kept concealed It is feared that the combined forces of Price, Van Dorn, McCulloch, McIntosh and Pike will again overrun the country, which keeps thousands from avowing their sentiments Price, after a hot chase, is cooling off in the Boston Mountains Ben McCulloch is this side of the Mountains

The Royal Mail steamship Canada from Liverpool 22d and Queenstown 23d, arrived at 10 30 o'clock this morning She experienced fine weather during her passage

Great Britain

In the House of Commons on the 20th, Mr O Donoghue moved for a return of British vessels destroyed in attempts to break the blockade, and a return of British vessels that put into Nassau with captains and owners respectively, that have succeeded in running American blockade Also for similar return of British vessels captured or war, and supplies for Confederate States, and that have been permitted to refit and supply themselves at those places in contravention of the Queen's proclamation and of neutrality He strongly censured the Government for not having taken active steps to prevent breaches of neutrality, committed by British ships.

Mr Layard said it would scarcely be convenient for him to enter into a discussion of the blockade, which would come on more regularly when the resolution, notice of which had been given, came up He must decline to consent to the returns for two reasons In the first place, Government had not got the information sought for, and in the second place, if they had, it would not be their office to furnish a list of wrong doings and violators of law.

The papers relative to the blockade would probably be laid on the table on the 24th or 28th It would contain a statement of the number of vessels which had broken the blockade, and perhaps their tonnage, and he hoped the information would satisfy the O'Donoghue.

The Solicitor General explained the misapprehension of Mr O'Donoghue He said private vessels might carry contraband of war, but at their own risk, if detected, they must abide the consequences

Mr C. Fortescue confirmed the recent reports of successful gold mining in British Columbia.

Lord Palmerston, in reply to Mr Haliburton, said negotiations with the American government relative to the island of San Juan had been suspended in consequence of the civil war An arrangement, however, had been made, that there should be a provisional joint occupation

Mr Maguire called attention to serious distress in Ireland

Sir Robert Peel refuted his assertion, and in the course of his remarks said "No more remarkable proof of the absence of grievances existed than that which occurred the other day when there was danger of a rupture with America Ireland was full of American emissaries trying to raise up a spirit of disloyalty, and a meeting was held in Dublin, at which a [illegible] traitors tried to imitate the [illegible] garden heroes 1848, but met with no response Not a single man of respectability throughout the country answered the appeal made to them And why? Because the Ireland of the present day was very different from the Ireland of the past."

In reply to a question on Italian affairs, Lord Palmerston said he believed there was a strong desire that Rome should be the capital of Italy and that the Pope's temporal power should cease The British government, however, had taken no part in an expression of opinion, and no instructions had been given to Sir James Hudson to make any remonstrance on the subject at Turin

It is stated that the army estimates are likely to show a saving of about a million sterling, arising chiefly out of repayments for troops in India. Another India regiment is to be formed The infantry regiments at home are to be reduced by fifty men Each of the battalions in Canada are to be of full strength 1000 men

An influential deputation from the cotton manufacturing districts had an interview with Lord Palmerston and Sir James Wood, relative to the tariff on cotton goods in India, and petitioned for redress of hardships arising from this tariff

Lord Palmerston said the Government felt the greatest regret at private distress, but could not think it due to one cause only

Sir Charles Wood said the tax was intended as a protective one, but originated in a financial necessity The India government had already reduced the duty on yarns, and hoped soon to do the same on manufactured goods, but could not promise at once.

Queen Victoria, in response to an application from the committee of the Albert memorial fund, expressed herself in favor of a grand obelisk, on the site of the great exhibition of 1851

Glass, Elliott & Co in a letter to Cyrus W Field, say they would not be willing to manufacture and lay the Atlantic telegraph, assuming the entire risk, as they believe it too great for one firm, but are so confident of satisfactory results, that they are willing to contract for the work and stake a large sum in its successful laying and working They will make a definite offer in a few days They furnished a list of 3600 miles of cable already laid by them, and all working successfully except in three small stretches

London, Sunday, 23d—The anniversary of the birth of Washington was celebrated yesterday by a public breakfast at Free-Mason's Tavern The Bishop of Ohio presided, and two hundred ladies and gentlemen were present

Mr Adams, United States Minister, in proposing the toast "The memory of Washington," referred to the present crisis in America. The United States, he said, are engaged in throwing off the burden of malign power The assault on the Federal Government carries with it an aggressive principle. It involved the subversion of the prescriptive rights of some men to rule over their fellows We must then fully re-establish our fundamental doctrine at every hazard It will doubtless cost us a severe effort Men may lose disorder, and perhaps confusion, but let us remember the trials which Washington endured—let us trust that we are passing through the fire of purification only to gather as of yore, the moral fruits of self devotion.

The Bishop of Ohio proposed the health of Queen Victoria, which was drank with much enthusiasm

Mr Moss, the United States consul at London proposed the next toast, which was "The Union,"

Mr Cyrus Field proposed, "England and America" and invoked the sympathy of England in favor of a cause which would ultimately remove from the United States the great cause which had produced the present trouble. The proceedings lasted upwards of five hours and terminated in a vote of thanks to the Bishop of Ohio

Passed to be enacted—An act to repeal an act entitled an act to provide for the compensation of the County Commissioners and for the apportionment of an auditor and his compensation for the County of Penobscot, An act to authorize the Governor to appoint one or more Commissioners to each regiment of Maine volunteers to take acknowledgement of Deeds and conveyance or to administer oath and take depositions an act to make valid the doings of towns in providing for the payment of a bounty to volunteer soldiers therein, and to authorize the assessment of a tax or taxes to pay the same

The bill relating to the aid of families of volunteers was taken up the question being upon reconsidering the vote striking out the fifth section

Mr Cary (having the floor) said it would be [illegible] under this bill no town can draw upon the State for any future payment unless the soldier shall have signed allotment roll but those who have managed this matter have so arranged the bill that the large towns can get the benefit of expenditures already made without any restrictions whatever

Mr Gilman thought the effort had been made to create a prejudice between the city and the country He regarded the interests of both as linked together, like the different members of the body, they are so connected that if one member suffers, all suffer with it

Mr Chase of Turner, opposed the bill, and thought the act of 1861 extended, was as well as could be done

A communication from the secretary of State was read, informing the Senate that a proposition had been received from Mr H L Davis of Portland, proposing to sell to the State the remainder of the edition of the Revised Statutes, about 1500 in number The communication was referred

HOUSE

Read and assigned—Resolve in favor of the Penobscot Indians, resolve in favor of the Passamaquoddy Indians, resolve providing for the deficiency of the Agent of the Penobscot Indians for 1861, an act to amend chapter 0 of the Revised Statutes in relation to the affairs of the Penobscot and Passamaquoddy Indians

Passed to be engrossed—Resolve in aid of the military road in the county of Aroostook, an act to extend the time to complete the Penobscot Railroad

On motion of Mr Strickland of Bangor, report of Committee on Railroads on bill an act to aid the Penobscot and Piscataquis Railroad was taken up and the bill was referred to the next Legislature

SENATE

Saturday, March 1st

Mr Warren, from the Committee on Agricultural, reported legislation inexpedient on order relative to imposing a tax on dogs

Mr Farwell said that he did not know why the committee had come to the conclusion indicated by this report. For his own part, he could see no reason why dogs, as well as other property, should not be taxed. They cause a great deal of injury to the agricultural interest every year He was therefore in favor of a tax, and he would move to recommit to the committee, with instructions to report a bill placing a tax on all dogs of at least 1s.

Mr Vinton considered this an important matter, and one to be by no means trifled with [illegible] the dogs themselves are worth for twenty years. If these dogs are of value, why should they not be taxed? If valueless, why should they be kept?

Mr Warren said that a minority of the committee were in favor of a tax, and had no doubt that such a course would be for the advantage of the stock raisers of the State, but they were overruled and outvoted by the majority of the committee Hence this report

Mr Peters said that if any one had appeared in the arena in behalf of the canine race, he should not have said a word, but as no one spoke for them, he felt it to be his duty to do so He was willing to trust to the agricultural interest in the decision of this question, and when they had made their decision, he was willing to abide by it The question came up originally before the Judiciary Committee In the discussion in that committee, he noticed that those who lived in the cities and large villages where they wished no impediments or obstructions on the sidewalks, and where they have little or no love of domestic animals, that they were in favor of a tax, but in the country they were all opposed to it The committee supposed that the farmers were better judges than the lawyers on this subject however, and the matter was referred to them

He did not believe in the statistical way of arguing the question that so much harm has been done and hence dogs should be abolished Sometime ago a man estimated the amount of gingerbread eaten at musters, and the amount of good the money spent for it might not have done Why not estimate the amount spent for India crackers at Fourth of July? He believed that the dogs did much good The farmers could hardly do without them

After further debate by Messrs Vinton, Farwell, Harlow and Roberts, the Senate by a large majority, agreed to Mr Farwell's motion to recommit with instructions

Bill to suspend the office of Superintendent of Common Schools, was read the second time

Mr Sweat moved that the bill be indefinitely postponed

The motion was unanimously agreed to

HOUSE

On motion of Mr Sewall of Oldtown,

Ordered That the Joint Standing Committee on our Coast and Frontier defence and on Military Affairs, be instructed to inquire into the expediency of procuring a quantity of Spencer's Repeating Rifles for the use of the State and that said Committee are authorized to act jointly

Mr Strickland, of Bangor, from the Committee on Railroads, Ways and Bridges to which was referred an act to authorize the city of Bangor to aid in the construction of the Aroostook Railroad, reported that the same ought to pass Accepted

BOOTS AND SHOES

MADE ON

PLUMER'S PATENT ANATOMICAL LASTS!

[From J. V. C. Smith, M. D., formerly Mayor of Boston.]

PLUMER'S PATENT BOOTS.

The Undersigned has worn a pair of these IMPROVED BOOTS, and feels grateful to the Inventor for the comfort derived from them. The nice adjustment of the sole to every part of the under surface of the foot, is an important circumstance which seems to have been entirely overlooked till Dr. Plumer planned his Last and Boot upon *truly scientific principles*.

Those who have once had an opportunity to test the real advantages of these Philosophically made Boots, will hardly be reconciled to wear any other.

J. V. C. SMITH.

BOSTON, July 26, 1861.

J. C. PLUMER, M. D.:

Dear Sir: I am greatly delighted with your newly invented boots which I have worn during the past winter, and only wonder that the world should have been so stupid as not to have made the discovery half a century ago. Any one with a grain of common sense and a moment's reflection, cannot fail to see that your "PATENT BOOTS AND SHOES" are *perfectly adapted to the foot* (that wonderful piece of *Nature's Mechanism*,) giving to *every portion* of it a *full and equal support*; and I am sure that those who once make trial of your new invention will never go back to the old fashioned boots or shoes, which are so prolific of Corns, Bunions, and a thousand other troubles. Your "*Patent Boots*" seems to be part and parcel of our *Physical structure*, supporting the foot evenly, *giving steadiness to the gait*, and promoting an ease and comfort to an eminent degree, especially in walking over rough surfaces.

I wish I knew of some means by which I could make known to every man, woman and child in Christendom, the nature and importance of your invention. Very truly yours,

MORRIS MATTSON, M. D.
65 Summer Street.

RUTLAND, July 12, 1860.

DR. PLUMER—

Dear Sir: Having learned the principle upon which your "Anatomical Last" is made, I was favorably impressed as to its efficiency in relieving a difficulty which all have experienced, who have to walk considerably, viz: severe pain in the feet after much walking. After having worn the boots made upon the "Anatomical Last," I found my anticipations more than realized. I can walk nearly all day without experiencing the above named difficulty in the least degree. I also escaped the torturing process of breaking in my boots, for they were as easy at first as after they had been worn.

Truly Yours, C. H. BURBANK, M. D.

DR. SWEET'S

Infallible Liniment!

—THE—

Great External Remedy

For Rheumatism, Gout, Neuralgia, Lumbago, Stiff Neck and Joints, Sprains, Bruises, Cuts and Wounds, Piles, Headache, and all Rheumatic and Nervous Disorders,

FOR all of which it is a speedy and certain remedy, and never fails. This Liniment is prepared from the recipe of Dr Stephen Sweet, of Connecticut, the famous bone setter, and has been used in his practice for more than twenty years with the most astonishing success.

AS AN ALLEVIATOR OF PAIN it is unrivalled by any preparation before the public, of which the most skeptical may be convinced by a single trial.

This Liniment will cure rapidly and radically, RHEUMATIC DISORDERS of every kind, and in thousands of cases where it has been used, it has never been known to fail.

For NEURALGIA, it will afford immediate relief in every case, however distressing.

It will relieve the worst cases of HEADACHE in three minutes, and is warranted to do it.

TOOTHACHE also will it cure instantly.

For NERVOUS DEBILITY and GENERAL LASSITUDE arising from imprudence or excess, this Liniment is a most happy and unfailing remedy.—Acting directly upon the nervous tissues, it strengthens and revivifies the system, and restores it to elasticity and vigor.

FOR PILES.—As an external remedy, we claim that it is the *best* known, and we challenge the world to produce an equal. Every victim of this distressing complaint should give it a trial, for it will not fail to afford immediate relief, and in a majority of cases will effect a *radical* cure.

QUINSY AND SORE THROAT are sometimes extremely malignant and dangerous, but a timely application of this Liniment will never fail to cure.

SPRAINS are sometimes very obstinate, and enlargement of the joints is liable to occur if neglected. The worst case may be conquered by this Liniment in two or three days.

BRUISES, CUTS, WOUNDS, SORES, ULCERS BURNS AND SCALDS, yield readily to the wonderful healing properties of *DR. SWEET'S INFALLIBLE LINIMENT*, when used according to directions. Also, CHILBLAINS, FROSTED FEET, and INSECT BITES AND STINGS.

Every Horse Owner

should have this remedy at hand, for its timely use at the first appearance of Lameness will effectually prevent those formidable diseases, to which all horses are liable, and which render so many otherwise valuable horses nearly worthless.

Over four hundred voluntary testimonials to the wonderful curative powers of this Liniment have been received within the last two years, and many of them from persons in the highest ranks of life.

CAUTION.

To avoid imposition, observe the signature and likeness of Dr Stephen Sweet on every label, and also "Stephen Sweet's Infallible Liniment" blown in the glass of each bottle, without which none are genuine. RICHARDSON & CO.

PROF. WOOD'S

RESTORATIVE CORDIAL,

AND

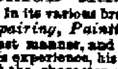

BLOOD RENOVATOR,

Is precisely what its name indicates, for while pleasant to the taste it is revivifying, exhilirating, and strengthening to the vital powers.—It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined as to be the most powerful tonic, and yet so perfectly adapted as to act in perfect accordance with the laws of nature, and hence soothe the weakest stomach, and tone up the digestive organs, and allay all nervous and other irritation. It is also perfectly exhilirating in its effects, and yet it is never followed by lassitude or depression of spirits. It is composed entirely of vegetables, and those combined having powerful tonic and soothing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly skilled in medical science and also by all who have suffered by debility; for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most dangerous diseases to which poor humanity is constantly liable. Such, for example, as the following: Consumption, bronchitis, indigestion, dyspepsia, loss of appetite, faintness, nervous irritability, neuralgia, palpitation of the heart, melancholy, hypocondria, night sweats, languor, giddiness, and all that class of cases so fearfully fatal if unattended to in time, called *female weaknesses and irregularities*. Also, liver derangements or torpidity, and liver complaints, diseases of the kidneys, scalding or incontinence of the urine, or any general derangement of the urinary organs, pain in the back, side and between the shoulders, predisposition to slight colds, hacking and continued cough, emaciation, difficulty of breathing, and indeed we might enumerate many more still, but we have space only to say it will not only cure the debility following chills and fever, but prevent all attacks arising from Miasmatic influences, and cure the diseases at once, if already attacked. And as it acts directly and persistently upon the biliary system, arousing the liver to action, promoting in fact all the excretions and secretions of the system, it will infallibly prevent any deleterious consequences following upon change of climate and water; hence all travelers should have a bottle with them, and all should take a table spoonful at least before eating. As it prevents costiveness, strengthens the digestive organs, it should be in the hands of all persons of sedentary habits—students, ministers, literary men. And all ladies not accustomed to much out-door exercise should always use it. If they will, they will find an agreeable, pleasant, and efficient remedy against those ills which rob them of their beauty; for beauty cannot exist without health, and health cannot exist while the above irregularities continue. Then again the cordial is a perfect mother's relief. Taken a month or two before the final trial, she will pass the dreadful period with perfect ease and safety. *There is no mistake about it, this cordial is all we claim for it. Mothers, try it!* And to you we appeal to detect the illness or decline, not only of your daughters, before it be too late, but also your sons and husbands, for while the former, from false delicacy, often goes down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that if it were not for you they too would travel in the same downward path, until too late to arrest their fatal fall. But the mother is always vigilant, and to you we confidently appeal; for we are sure your never failing affection will unerringly point you to Prof. Wood's Restorative Cordial and Blood Renovator as the remedy which should be always on hand in time of need. O. J. WOOD, Proprietor, 444 Broadway, New York, and 114 Market Street, St. Louis, Mo., and sold by all good Druggists.

ST LOUIS, MO., June 1st, 1859.

MESSRS. W. E. HAGAN & Co.,

I hereby certify that my Hair having become gray and my head partially *bald*, I bought from Henry Reynolds, Druggist, one four bit bottle of HEIMSTREET'S INIMITABLE HAIR RESTORATIVE. By its use my Hair was restored to its original color and thickness; it removed all dandruff, arrested its falling and gave it a rich, glossy appearance. Its effects were entirely different from any Hair Preparation I ever used before. I know of several ladies and gentlemen, my intimate friends, who all speak of the "Inimitable" as being the best and cheapest Hair Preparation in our market. I can fully recommend it, and will refer any one to Henry Reynolds, Druggist, for the truth of my statements. WILLIAM BOSBYSHALL.

Read one of the many letters received by the Proprietors:

St. Louis, Mo., Aug. 2, 1860.

Messrs. W. E. HAGAN & Co., Troy, N. Y.—Gents: The happy results attending the use of *Heimstreet's* INIMITABLE (in every sense of the word,) *Hair Restorative*, seems to demand that I should give my testimony that other ladies might profit by it. I have never used a hair preparation that I liked so well. It has *completely restored* every hair that was grey to the color it was in girlhood, and has brought it out thick and healthy. I was induced to use the article by Mr. Reynolds, your Agent here. If this letter will be of service, you may publish it.

Very respectfully yours,
Mrs. M. M. BORST, *Brooklyn st.*

FOR

THE MAGNOLIA BALM:

For when the face is covered with unsightly Pimples or Blotches, the sufferer cares only to be directed to use some *safe and reliable remedy*.

THE MAGNOLIA BALM WILL CURE THE WORST CASE OF PIMPLES IN A SINGLE WEEK.

It is so safe a remedy that the contents of a bottle might be drank without harm. Physicians look upon its speedy cures, for it has heretofore been thought absolutely necessary to use preparations of lead or mercury to cure immediately; but the MAGNOLIA BALM contains neither. It is the most elegant and neatly put up article for sale anywhere, and may be obtained of all our Apothecaries and Fancy Goods Dealers.

Sold everywhere—Price Fifty Cents a Bottle.

THAT HAS

Stood the Test of Years,

And grows more and more popular every day!

AND testimonials new, and almost without number, might be given from ladies and gentlemen, in all grades of society, whose united testimony none could resist, that Prof. Wood's Hair Restorative will restore the bald and gray, and preserve the hair of the youth to old age, in all its youthful beauty.

BATTLE CREEK, Mich., Dec. 21, 1858.

Prof. Wood.—Thee wilt please accept a line to inform thee that the hair on my head all fell off over twenty years ago, caused by a complicated chronic disease, attended with an eruption on the head. A continual course of suffering through life having reduced me to a state of dependence, I have not been able to obtain stuff for caps, neither have I been able to do them up, in consequence of which my head has suffered extremely from cold. This induced me to pay Briggs & Hodges almost the last cent I had on earth for a two dollar bottle of thy Hair Restorative, about the first of August last. I have faithfully followed the directions, and the bald spot is now covered with hair thick and black, though short. It is also coming in all over my head. Feeling confident that another large bottle would restore it entirely and permanently, I feel anxious to persevere in its use, and being destitute of means to purchase any more, I would ask thee if thee wouldst not be willing to send me an order on thine agents for a bottle, and receive to thyself the scripture declaration—"the reward is to those that are kind to the widow and the fatherless."

Thy friend. SUSANNAH KIRBY.

LIGONIER, Noble Co., Indiana, Feb. 5, 1859.

Prof. O. J. Wood—Dear Sir: In the latter part of the year 1852, while attending the State and National Law School of the State of New York, my hair from a cause unknown to me, commenced falling off very rapidly, so that in the short space of 6 months the whole upper part of my scalp was almost entirely bereft of its covering, and much of the remaining portion upon the side and back part of my head shortly after became gray, so that you will not be surprised when I tell you that upon my return to the State of Indiana my more casual acquaintances were not so much at a loss to discover the cause of the change in my appearance, as my more intimate acquaintances were to recognize me at all.

I at once made application to the most skillful physicians in the country, but, receiving no assurance from them that my hair could again be restored, I was forced to become reconciled to my fate, until, fortunately, in the latter part of the year 1857, your Restorative was recommended to me by a druggist, as being the most reliable Hair Restorative in use. I tried one bottle, and found to my great satisfaction that it was producing the desired effect. Since that time I have used seven dollars' worth of your Restorative, and as a result have a rich coat of very soft black hair, which no money can buy.

As a mark of my gratitude for your labor and skill in the production of so wonderful an article, I have recommended its use to many of my friends and acquaintances, who, I am happy to inform you are using it with like effect.

Very respectfully yours, A. M. LATTA,
Attorney and Counsellor at Law.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small. The small holds ½ a pint, and retails for one dollar per bottle, the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for three dollars per bottle.

SCIENTIFIC AMERICAN

—THE—

Best Mechanical Paper in the World.

SEVENTEENTH YEAR.

VOLUME VI—NEW SERIES.

A NEW VOLUME of this widely circulated paper commences on the first of January. It is published WEEKLY, and every number contains sixteen pages of useful information, and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

To the Mechanic and Manufacturer.

No person engaged in any of the mechanical or manufacturing pursuits should think of "doing without" the SCIENTIFIC AMERICAN. It costs but four cents per week; every number contains from six to ten engravings of new machines and inventions, which cannot be found in any other publication. It is an established rule of the publishers to insert none but original engravings, and those of the first class in the art, drawn and engraved by experienced persons under their own supervision.

To the Inventor.

The SCIENTIFIC AMERICAN is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the claims of all the Patents issued from the United States Patent Office during the week previous; thus giving a correct history of the progress of inventions in this country. We are also receiving, every week, the best scientific journals of Great Britain, France, and Germany; thus placing in our possession all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these journals of whatever we may deem of interest to our readers.

Chemists, Architects, Millwrights and Farmers.

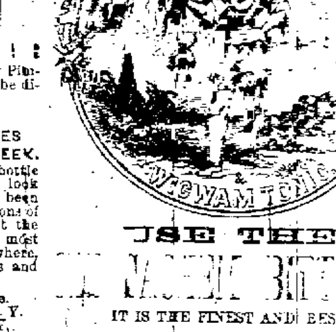

The SCIENTIFIC AMERICAN will be found a most useful journal to them. All the new discoveries in the science of chemistry are given in its columns, and the interests of the architect and carpenter are not overlooked; all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill-owners will be found published in the Scientific American, which information they cannot possibly obtain from any other source. Subjects in which planters and farmers are interested will be found discussed in the Scientific American; most of the improvements in agricultural implements being illustrated in its columns.

TERMS.

To mail subscribers: Two Dollars a Year, or One Dollar for six months. One Dollar pays for one complete volume of 416 pages; two volumes comprise one year. The volumes commence on the first of January and July. Specimen copies will be sent gratis to any part of the country. A valuable pamphlet of instruction to inventors about obtaining patents sent free.

Western and Canadian money or Post-office stamps taken at par for subscriptions. Canadian subscribers will please to remit twenty-six cents extra on each year's subscription to prepay postage.

CONSUMPTIVES.

AN equal and normal circulation of the blood is health. An abnormal, that is to say an excessive or deficient circulation or stagnation of the blood, is disease. To illustrate—Every disease of the Liver is caused by stagnation of the blood in that organ; diseases of the Kidneys, Inflammation of the Lungs, Diseases of the Heart, &c., by the same cause, viz: Improper Circulation. And from the same cause spring all minor forms of disease. To discover a certain cure, then, for these diseases, the first great enquiry, necessarily is, What causes the blood to circulate?

For centuries it has been a matter of much study among scientific and medical men, and while many experiments have been made and much time expended upon the enquiry, it has been left to this century among its other wonderful advances in knowledge, to make this grand discovery.

Acknowledging that life is the gift of the Creator, and that "in Him we live and move and have our being," we still venture the remark that as the planets move in their spheres and all things in nature is governed by certain absolute laws, so animal life is traceable to a fixed cause, which removed, causes decay, and death, the certain effect, follows.

Analysis of the red corpuscles of the blood shows them to be compounds of iron, sulphur and phosphorus.

The air we breathe, we know to contain a very large proportion of oxygen.

Oxygen brought in contact with a metal excites or emits electricity.

Electricity brought in contact with a muscular fiber, causes it to contract.

These facts being indisputable, we have now the solution as to the motor or motive power of the heart. The oxygen in the air we breathe is brought in contact with the iron corpuscles of the blood, and emits electricity, which coming in contact with the heart causes it to contract and hence the pulsation, which expels the blood and sends it through all the arteries. What then are the causes of Consumption, Dropsy, Palsy, Paralysis, St. Vitus' Dance, Dispepsia, Epilepsy, Fever and Ague, &c., a deficiency of the red corpuscles containing the iron, sulphur and phosphorus, which causes a deficiency of electricity, and consequently an abnormal circulation. The blood becomes watery, colds and bronchial complaints and consumption ensue—the sufferer becomes nervous, and subject to rheumatic pains and neuralgia—congestion of the liver and kidneys set in, in short almost every type of disease! and virulent fevers may be traced to this deficiency in the blood, of the corpuscles of red globules.

Old age causes a deficiency of corpuscles and while we do not pretend to say that we have discovered the "elixir vitæ," we do say that life can be materially prolonged by the use of the

"Blood Food,"

which restores the red globules, and thus the normal circulation. Consumptives! Friends of consumptives! Sufferers from any organic disease! Unfortunates, who have by excesses of the mind, reduced the standard of the blood and diminished the red globules! Ladies suffering any of the distresses known as female complaints, let us say the "Blood Food" can cure you. It has cured thousands in desperate cases where all hope has been given up. Do not reject it, but throw away your only hope. The "Blood Food" is an unfailing remedy; give it a trial.

An elaborate treatise carrying out and fully proving the theory advanced here to be correct, will be mailed to any interested party, on the receipt of two 3 cent stamps. Blood Food is sold by all druggists: or where it cannot be had I will send the articles, free of expense, for $1 per package, or 6 bottles. It is put up in one size in yellow wrappers of the old kind, in small bottles, and wrappers have all been done away with—and bears the fac-simile signature of Church & Dupont upon the face of each wrapper. Beware of counterfeits as I cannot otherwise.
